- Designed for 3/4 Ton and up
- Picker Arm- 5,000LBS Capacity, -21' Reach
- 20'L X 8"W C Channel Steel/Wood Deck- Painted Black
- Tandem 5,000LBS Axles c/w Electric Brakes
- 4 X 10' X 3'H Custom Design Removable Sign Plates
- 8 HD Ratchet Straps

## ATV/SXS ALL TERRAIN POD TRAILER

- Designed for ATV or Side X Side Vehicles
- 100"LX50"WX24"H Tubular Aluminum Frame Power Coat Orange
- 2" Ball, Removable Tongue
- Tilt Up and Slide Off Function
- 4 HD Ratchet Straps
- Assembly Instructions
- Crate shipping via Road, Rail, or Air

## HOT SHOT DELIVERY- GLOBAL

All products are tested, disassembled, and crated for secured transport. Detailed Instructions are provided to easily assemble when arriving on site. This ensures that all contents are accounted for and in tact prior to leaving the factory, during and after transit.

All frames are serial numbered having tracking devices allocated to each serial number. This is important for lease options as well as continuous tracking for resource managers.

We provide subject matter experts (SME) experienced in values protection to assemble pods, load to the various carriers, and provide full orientation to designated operators.
